## **Where do you find an expert when you need one?**

This is particularly problematic when you are an expert. Your standards are high and you know what needs to be done, but for various reasons, it does not make sense for you to handle all aspects of the matter yourself.

## **Who can you call to make sure it gets done right?**

For over 40 years, our clients — including experts like you — have made Adelman Katz & Mond their most trusted business advisor.

## **Why not call us today and find out?**

Whether you want us to roll up our sleeves and work alongside you or choose to have us take matters off your hands altogether, we offer a full range of compliance, fiduciary and tax services.

Contact AKM Partners David E. Mond, CPA or Craig L. Venokur, CPA for more information.
